ZELAYA FIRES ON AMERICANS

KUHIO'S ATTACK

TALK THAT HE PLANS A NEW HAWAIIAN PARTY ON THE LAND ISSUE—WILL HONOLULU REPUBLICANS THROW HIM OVER OR SUPPORT HIM AGAIN, IS QUESTION NOW RAISED.

Delegate Kuhio's outbreak against Governor Frear, news of which was first published in The Star a week ago, and which he on Saturday made a great deal stronger by accusing the Governor of "lying," has set the politicians talking and guessing.

It seems to be still the general Republican opinion that Kuhio will get the party nomination if he goes after it. But that raises a lot of tough questions. For example it is the usual rule for the executive, as head of the party, to help the ticket, but Frear can certainly no longer be expected to

take the stump for Kuhio. It is also the rule for Republican conventions to endorse the head of the party, but how can the next convention nominate Kuhio and endorse Frear?

As a political move in the interests of his own candidacy, Kuhio's statements are regarded with varying opinions.

It is generally known that on the island of Hawaii especially there is strong sentiment on the land question.

ACCUSE FOREMAN OF PETIT GRAFTING

LABORERS DECLARE THAT LUNA CHARLES BRIDGES OF LAIE COMPELS THEM TO BUY POI AND PORK FROM HIM—CHARGES APPEAR TO BE WITHOUT MERIT AND ARE PROBABLY SPITE WORK BECAUSE THE BOSS OBJECTED TO FISHING WITH DYNAMITE.

From Laie, on the windward side of this island, comes a tale of woe which His Honor, Mayor Fern, and the City and County Engineer, Gere, have been looking into, and which, it appears, will have to come before the Board of Supervisors.

Charles Bridges, road foreman, has been accused of various and sundry alleged crimes, but the Mayor and the engineer are unable to see that he has been guilty of anything irregular. Rather it appears to be nothing but a local spat and will probably be treated as such.

Bridges it is alleged in a lengthy petition, uses the road men to gather taro for him; and to pound poi for him. It is also declared that he makes the road employees buy the poi that is thus made, and that, further, he kills and cuts up and sells pigs to his road men.

The investigation by the Mayor and the City and County Road Engineer, however, shows that whatever a road employee does for Mr. Bridges is done outside of City and County working hours, and Mr. Bridges pays for the

work out of his own private purse. When he sells poi or pork to the County road employees he gives them their money's worth and he makes little or no profit out of it. It is admitted that it is poor policy, but absolutely nothing really wrong has been disclosed.

It appears that at the bottom of the petition of certain alleged sore-head laborers lies the fact that Charles Bridges expostulated with some of his road men for the reason that they were fishing with dynamite. He threatened to report them, or did report them, for killing fish with dynamite, against the law; and, to get even with him they signed a petition or a complaint alleging the various things against their foreman; that he makes his men buy his poi and pork; that he favors certain men who work for him privately, and that he is unjust to others who refuse to work for him privately.

All of which charges do not appear to be substantiated, and all of which is not considered of particular interest to the City and County Board, but rather a local quarrel.

PUBLIC LIBRARY BUILDING.

EDITOR STAR:—As the matter of a public library building for Honolulu has been brought prominently before our people of late it may be interesting to know what is being done in this line in other and larger places.

The public library building now approaching completion in New York City has been pronounced by some as the "most magnificent public building in the United States." The following details are taken from an eastern paper. The building fills the entire frontage of two city blocks from Fortieth to Forty-second street, facing east. It is three hundred and ninety-four feet long, two hundred and seventy-four feet deep, and one hundred and thirty feet above the ground to its highest point. The stock room at the rear, overlooking Bryant Park, is two hundred and ninety-seven feet long, seventy-eight feet wide and fifty-three feet high. This is occupied by a structure of steel beams covering almost the entire space and containing four and a half million pounds of steel. This is the book case proper. There will be sixty-three miles of book shelves.

INTER-ISLAND COMPANY LIBELS CELTIC CHIEF FOR \$35,000 SALVAGE

Lightning has struck in the matter of salvage of the lately stranded British ship Celtic Chief. It is a suit in admiralty filed today in the United States District Court by the Inter-Island Steam Navigation Company against the vessel and cargo for \$35,000.

Marshal Hendry served the papers on Captain Henry, master of the Celtic Chief, at the wharf. He also made service on Norman Watkins, manager of the Hawaiian Fertilizer Co., to prevent him from paying any of the freight money. Smith & Lewis are practicers for the libellant.

AYLETT IN NEW HEAD THE TOILS

CITY FATHER GARNISHEED FOR TAXES WHICH HE CLAIMS HE DOES NOT OWE.

The dignity of a City Father has been ruffled by the merciless and unsympathetic routine of the heartless tax office.

Supervisor Aylett has been garnisheed for taxes alleged to be due, amounting to \$34.70.

The queer part of the proceeding is that the tax assessor came all the way town town to garnishee Aylett's municipal salary of \$50 per month as a statesman, when it would have been so much easier to garnishee him as night custodian of the capitol building.

Whether Aylett owes the money is another question. Ten dollars is claimed by the Territory for personal taxes, and the rest on property.

The personal tax alleged to be due relates to the time when Aylett was a member of the band, and as such was exempt from taxation. The property tax he also declares is an imposition, for the reason that the property taxed has left his hands through foreclosure of mortgage.

NO OPIUM IN CHAMBERLAIN'S COUGH REMEDY.

There is not a particle of opium or other narcotic in Chamberlain's Cough Remedy, and never has been since it was first offered to the public. It is as safe a medicine for a child as for an adult. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

Have your typewriter, cash registers and adding machines repaired by the Office Supply Co. They have a complete repair department for this work.

NEW HEAD DETECTIVE

ARTHUR McDUFFIE MAKES HIS BOW TO THE ROGUES' GALLERY TODAY.

There's a new Sherlock in the police cabinet. This morning Chief of Detectives Arthur McDuffie stepped into the upstairs office of the intelligence department and gathered unto himself the files and papers and alphabetical indexes to crime and criminals, local and otherwise. He made his bow to the Rogues' Gallery with a promise to nab any one of the famous delinquents who might run afoul of his path.

Outside of "Peeping Toms," gambling, and a few vags and petit thieves, there is at present not very much wickedness in Honolulu.

In re gambling, McDuffie is likely to spring a surprise on a few of the established offenders before long. He has had police experience ere this and is no new man at the game.

ANOTHER TRAGEDY AT PARKER RANCH

(Wireless to The Star.)

HONOKAA, December 13.—Manager Vredenberg, of the Waikali station of the Parker ranch, accidentally shot himself while hunting wild pigs. He died at eleven yesterday morning.

Fine Job Printing, Star Office.

MARINES MET BY BULLETS AT BLUEFIELDS

(Special Cable to The Star by the United Press).

NEW ORLEANS, December 11.—The Latin-American element in this city is much excited over the news embodied in a brief wireless message received from Colon. The message states that five American marines, who attempted to effect a landing at Bluefields, were fired upon. The fact that the United States Marines were met by bullets is taken as an indication of Bluefields being occupied by Zelaya, President of Nicaragua and leader of the government military forces.

SAN FRANCISCO, December 11.—Seven hundred additional U. S. Marines have been ordered to the protected cruiser Philadelphia to be prepared to sail at once for Nicaragua. It is reported here that Zelaya's army has reached Bluefields and that Zelaya has given orders to his soldiers to pillage the city.

American women have been taken aboard the American gunboats for safety.

RAYNER ASKS THAT ZELAYA BE PUNISHED

(Associated Press Cable to The Star.)

WASHINGTON, D. C., December 13.—Senator Raynor of Maryland, advocating his resolution to the effect that the United States take severe measures to discipline President Zelaya of Nicaragua on account of his violation of international rights in the execution of the American colonels of the revolutionary army, Cannon and Grace, today forcibly denounced Zelaya as a criminal, demanding that he be punished without delay.

The Nicaraguan affair has been referred to the Committee on Foreign Relations.

CORINTO, December 13.—United States cruiser Albany and U. S. gunboat Yorktown arrived here today from Magdalena bay.

MANAGUA, December 13.—The jails of this city are crowded with political offenders.

SAN SALVADOR, December 13.—Terror reigns in this city, the populace being in dread of war and a political upheaval.

WASHINGTON, D. C., December 13.—A man-of-war of the Mexican government is now en route to Nicaragua and it is possible that the United States and Mexico will join in settling the trouble in that state.

WASHINGTON, D. C., December 15.—Horace Harmon Lurton, 65 years of age, of Nashville, Tennessee, has been appointed Justice on the United States Supreme Bench.

Lurton was admitted to the bar in 1867. He was Justice of the Tennessee Supreme Court from 1886 to 1893, and was judge of the U. S. Circuit Court, Sixth Judicial Circuit, from March 29, 1893, being also professor of constitutional law and dean of the law department of Vanderbilt University.

BRUSSELS, December 13.—The sacrament was today administered to King Leopold. An operation from which he may not recover is contemplated.
